Full Name: Sandi

**Do you agree with our preferred option or do you support another option?**

Drinking water meters: Don't install meters

Let us know why: I don't believe that the meters are honestly intent for research of water wastage but intent to charge water usage, I believe as drinking water is a necessity in life for survival and cleanliness so we shouldn't be charged for it. We pay enough now, considering most employers now don't give pay increases but everything keeps going up, the standard house hold can't keep up financially and water meters is just another rate increase as far as I can see.

Elderly Persons Housing: Self-sustaining in 2 years - our preferred option

Let us know why: We need to be taking care of the elderly, they have worked and done their bit.

What do you think about our plans for our other projects and activities?: Have to make myself more familiar before answering
