

SUBMISSION TO THE LTP 2021-31

Dear Mayor and Councillors,

I feel very strongly that the most urgent subject should be our second bridge!!! specially for the thorough fare through our amazing town.

The site definitely needs to be addressed, we need it to continue straight down West Street.

Anywhere else would kill our town centre by taking potential customers away.

Our town centre is going to look fabulous when all the work is completed but this is a cost to our retailers and businesses in the centre, so let's not make it worse.

Another thing is, why weren't retailers considered when planning happened?

In our block on East Street we have lost 5 parking spaces.

This is a lot for one block to lose.

So councillors grow our town, don't kill it.

Regards

Carolyn Ewing
