

| Your Details | |
|---|--|
| First Name: | Davdi and Claire |
| Last Name: | Stevens |
| 1 | |
| Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? : | Yes |
| Why / Why not?: | |
| If so, what should we do less of?: | Spending money on stalled projects - eg the second bridge. Deciding when enough is enough and not flogging a dead horse. Spending council money to fix contractors mistakes - eg the roading revisiting. Repairs are not lasting and it seems we are paying each time there is a need to repair a repair. Surely there is a clause in the contracts for the length of time the road surface should last? |
| 2 | |
| Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?: | Yes |
| Why / why not?: | |
| 3 | |
| General comments: | The ADC has to be accountable for each dollar spent and not pay more to fix up errors or lack of foresight. An example of this is the entrance to the Domain. This should not have been a council/rate payer issue but instead should be put back to Transit NZ to fix. |
