Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	No
Why / Why not?:	Over the winter months I think the hours should remain the same so families or people who work during the day (rate payers) can access the pool for some exercise or leisure time. Summer time it possibly doesn't matter as much? Winter definitely needs somewhere indoors like the pool as an option.
If so, what should we do less of?:	Keep the hours over the winter months, shut early over summer when people are outside more doing whatever.

Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	Yes
Why / why not?:	The roads are shocking, I've had to replace 2 tyres over the years due to hitting massive deep potholes. My daughter was almost in an accident from an oncoming driver swerving to miss one. Not only the potholes, the really average paint and signage at stop/give way signs!!!!
