

Do you wish to speak in support of your submission at the hearing?: No

I am able to attend: Evening

I intend to attend: Virtually

Would you like to be added to our database to be notified of future consultations?: Yes

Your Details

Full Name: Christina Cox

Do you agree with our preferred option or do you support another option?

Drinking water meters: Don't install meters

Let us know why: You say the meters are being installed to find the leaks, are there no other options to do this? I don't believe you when you say we're not going to be charged for our water they are only to find the leaks. Your past history about listening to your people denotes this.

Elderly Persons Housing: Self sustaining in 7 years

Let us know why: They are in your housing as they can't afford normal rents, putting them up is not going to help them so do it slowly is it needs to be done at all

What do you think about our plans for our other projects and activities?: The bridge, two people out of 150 at the most recent bridge meeting wanted the bridge at Chalmers Ave. you didn't listen the first time round and you're not listening now. The original bridge committee all put \$300 in each to get a lawyer back then and you still didn't listen. Hark back to the Art Gallery, it was wanted by a minority and look what that's cost us. We should not even be paying anything towards the bridge your lobbying to Transit NZ has obviously been slack to say the least. The original West St bypass years ago was supposed to fix part of our traffic problem but then you went and put all those businesses there making it more dangerous and congested. Build a Bailey's bridge next to the current one and get the trucks out of town. What's the point in allowing more subdivisions in Tinwald making our population even larger and more traffic going to town. Traffic Lights are never going to fix the Traffic problem in Tinwald anyone that thinks that is deluded.
