

<b>Your Details</b>	
First Name:	Maria
Last Name:	Felton
Organisation:	
<b>1</b>	
Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	Yes
Why / Why not?:	If we can reduce some services a little, we can save some costs
If so, what should we do less of?:	Personally I wouldn't mind if we had rubbish collection reduced. We have a handy resource recovery park. If the resource recovery operators put some bins out to collect refuse after hours I believe we could get by with less rubbish collection. We can reduce rubbish collection, more particularly recycling in areas with ready access to recycling centers.
<b>2</b>	
Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	No
Why / why not?:	It's a one time revenue stream. It won't go far enough and the time to grow a new crop of trees is too long. It's not enough to be effective. It's a good idea but it won't go far enough to be worth the loss of income
<b>3</b>	
General comments:	I'm sure we could also make temporary cut backs elsewhere. Full service could be renewed once the economy normalizes. The roadibg needs fixed and to fix it to a more permanent condition is a great idea but I suspect 1.7 million will not be anywhere near enough.
