

Name Rosie Twamley

Do you wish to speak in support of your submission at the hearing? No

Do you agree with our preferred option or do you support another option?

Drinking water meters

- Spread over 3 years – our preferred option
- All in 1 year
- Don't install meters

Let us know why

Quicker it goes in, quicker we can collect data. Really need to decrease the percentage of water lost.

Elderly Persons Housing

- Self-sustaining in 2 years – our preferred option
- Self-sustaining in 7 years
- Status quo – inflationary rent increases + general rate

Let us know why

Best option economically. Should be enough time for residents to look into Government payment options that could help them with the change, as long as they are given enough notice of the change.

What do you think about our plans for our other projects and activities? Any other comments?

I think they are good. I believe we could be doing more with climate change, really pushing innovation and change, what this would mean for all residents, and how we can come together as a rural town and surrounding areas to work together to mitigate the risk to the population.
