

Your Details	
First Name:	Maxine
Last Name:	Hooper
1	
Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	No
Why / Why not?:	Because if we do we will end up with "roading" scenario. Always playing catchup
If so, what should we do less of?:	
2	
Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	Yes
Why / why not?:	If we don't we will always be patching. We live on Maronan Rd, during winter months especially we see the same pot holes being "patched" sometimes more than weekly by a man with a few shovels of mix that can be pressed out by trucks and traffic a few hours later. Not a cost effective exercise and having discussions with people it's the same on many other roads in the district.

General comments:	Our town refurbishment looks impressive but parking is a nightmare for older residents. The gardens look good as long as they are maintained, which I am sure is quite an expensive exercise from the Parks and Reserves budget.
