

Do you wish to speak in support of your submission at the hearing?: No

I am able to attend:

I intend to attend:

Would you like to be added to our database to be notified of future consultations?: No

Your Details

Full Name: Helen and Bruce Mitchell

Do you agree with our preferred option or do you support another option?

Drinking water meters: Don't install meters

Let us know why: We would prefer that the money went towards rain water tanks on each property. A huge amount of clean, free water is wasted with each rain. Then people can be sure of having abundant water for the garden, droughts and some household use. It would ensure water in emergencies such as earthquakes. Unchlorinated water is better for the garden, and us.

Elderly Persons Housing:

Let us know why:

What do you think about our plans for our other projects and activities?: We are strongly opposed to fluoridation of water. It is mass medication with a neurotoxin supposedly for the benefit of a very small number of children who don't care for their teeth, and don't drink water anyway. It is illegal for any medical thing to be forced on people. My body my choice. Please see the website, flouridefreenz for the science. Rates: we need to balance keeping rates down against lavish spending projects around town. Many people, will be struggling as a result of covid-19 lockdowns. Also we want our elderly cared for in an affordable way.
