

**Submission to Ashburton District Council
on Long Term Plan re: location of second
Ashburton Bridge**

I wish to submit to the ADC Long Term Plan
I do not wish to speak to this submission

I have been a resident of Ashburton for 52 years.
To me, putting the new bridge straight along West Street (east side) and extend the highway into 4 lanes and build the new bridge right alongside (to the west) of the current bridge.

Very soon there will be a large number of road contract workers who will be finishing the new highway in the Kaikoura area plus those who have worked on the new Southern Motorway in Christchurch who could be employed on this work.

I certainly oppose the Chalmers Avenue site. Feeding high traffic and heavy traffic through this area will create mayhem. I understand the ADC will re-engineer this road but there are a lot of elderly living along this road and this will make life very difficult for them trying to get to the Netherby shops and the town centre.
