

Do you wish to speak in support of your submission at the hearing?: No

I am able to attend: Morning

I intend to attend: In-person

Would you like to be added to our database to be notified of future consultations?: Yes

Your Details

Full Name: Harley Davies

Do you agree with our preferred option or do you support another option?

Drinking water meters: Spread over 3 years - Our preferred option

Let us know why: The cost in the scenario for the Montalto scheme are totally out of control for farmers on this scheme with increases like that its will drive people off their land ,we are also looking at an increase of \$16000 for our Ecan rates taking them to \$32000 and with this proposal it becoming completely unsustainable for us. I think its time to push back against the goverment and say to them that what they are demanding of country folk is to much, yes i can see what they are trying to achieve with their plans and yes i agree with a lot of it but with these sorts of increases in rates its not right. I would be proposing that each house hold has its own filtration system for drinking water.

Elderly Persons Housing: Self sustaining in 7 years
