Your Details

Full Name: Roman Prazak

Do you agree with our preferred option or do you support another option?

Drinking water meters: Don't install meters

Let us know why: I don't believe that the installation of meters at every household is the most economical solution and it won't solve the problem anyway. Rather installation meters at isolation valves and monitoring those would be more appropriate.

Elderly Persons Housing: Self-sustaining in 2 years - our preferred option

Let us know why: I'm happy with this solution.

What do you think about our plans for our other projects and activities?: Nothing to comment on these.
