

Name Brian Bell

Do you wish to speak in support of your submission at the hearing? No

Do you agree with our preferred option or do you support another option?

Drinking water meters

- Spread over 3 years – our preferred option
- All in 1 year
- Don't install meters

Let us know why

another way to sneak yet another filthy tax further ahead. if we cant supply water to a miniscule population how on earth does massive asian cities achieve supplying millions of people.

Elderly Persons Housing

- Self-sustaining in 2 years – our preferred option
- Self-sustaining in 7 years
- Status quo – inflationary rent increases + general rate

Let us know why

No way should the average person who has actually brought their own house be subsidising these people who had all their life to purchase their own property.

What do you think about our plans for our other projects and activities? Any other comments?

Keep your hands off the domain, cant afford this along with the cost increases for the new Council building which we were promised that everything was paid for and would need no more cash injections, seems to be already turning into another white elephant along with a certain building on West Street.
