Your Details

Full Name: Bronwyn Gilchrist

Do you agree with our preferred option or do you support another option?

Drinking water meters: Spread over 3 years - Our preferred option

Let us know why: Need to know what water is going where and when. If it is actually leaking.

Elderly Persons Housing: Self-sustaining in 2 years - our preferred option

Let us know why: Council should not be using funds to subsidize social living costs. Should be self funding.

What do you think about our plans for our other projects and activities?: Still need to do more work on recycling system to mirror districts around us i.e. Selwyn and Timaru, Inquired about getting a bigger red bin more than happy to pay but said I had to hang on to the original one and then get the size I required ending up with two red bins! What a waste. Also want work done on a green bin, Have no issue in paying more for this service as its convenience. As with anything that council does it must be sustainable in the long term.
