

<b>Your Details</b>	
First Name:	Peter
Last Name:	Murray
Organisation:	
<b>1</b>	
Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	No
Why / Why not?:	Service levels should remain the same or increase. Now that the COVID pandemic is ending, demand for services is likely to increase and basing decisions to cut services on usage over the last two unusual years is illogical. The services that are available could be better promoted to encourage usage. If necessary direct users of the services could pay a higher contribution of the costs of those services. Specifically, my family and I regularly enjoy using the EA Networks pools and spa in the evenings. Due to our hours of work, these are the only times we can swim and reducing the hours the pools are open means that we would be unable to use the facility. Having the pools open at least one evening per week would be preferable to the proposed closing times.
If so, what should we do less of?:	
<b>2</b>	
Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	Yes
Why / why not?:	The condition of a lot of the roading in the district is poor and an injection of funds is needed.
