

<b>Your Details</b>	
First Name:	adrian
Last Name:	parkes
Organisation:	
<b>1</b>	
Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	Yes
Why / Why not?:	Your current services you provide are below average with the amount of potholes around Methven that a lesser service will not change a lot. The ADC has been taking more rates as Methven has grown and rather than allocating funds to provide a better drink water service you are looking to increase rates for Methven yet we are to fund all the centres in the district and the services they receive
If so, what should we do less of?:	Theres not a lot you can do that is less than what you already do
<b>2</b>	
Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	No
Why / why not?:	This should be used to regenerate the district with more trees and parks. The money should be used to replace what has been destroyed.

General comments:	Based on the last information request re the water metres to be installed, despite the majority of the district not agreeing to proceed you did as you wanted to and didn't listen to your rate payer. There will be a new election process shortly and I hope the public vote with there feet and remove the current council and put people in place that listen to there ratepayers
