

Your Details	
First Name:	Nicholas
Last Name:	Dale
1	
Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	Yes
Why / Why not?:	
If so, what should we do less of?:	I find myself wondering about the cost of moving the digital speed reduction signs every few weeks. Whilst some of the plantings are nice around the district, this is something I would consider a luxury in a time that we're about to see record rates increases. I wouldn't like to see any reduction in essential things such as rubbish collection.
2	
Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	Yes
Why / why not?:	The state of the roads in our district are absolutely appalling. For example, the condition of the north bound lane on Chalmers Ave was fantastic before it was excavated to fit new waste pipes. I personally would have refused to pay the contractor for the absolutely disgusting finish that was left behind. The bar needs to be a lot higher for the roading contractors in the district.
