

Do you wish to speak in support of your submission at the hearing?: No

I am able to attend:

I intend to attend:

Would you like to be added to our database to be notified of future consultations?: No

Your Details

Full Name: Disappointed. (ANONYMOUS 2)

Do you agree with our preferred option or do you support another option?

Drinking water meters: Don't install meters

Let us know why:

Elderly Persons Housing: Self-sustaining in 2 years - our preferred option

Let us know why:

What do you think about our plans for our other projects and activities?: The cause of our drinking water issues is overallocation and degradation of our waterways by our local farming practices. ECAN may be at fault for allowing that to happen - but ADC's constant public support and encouragement of the continuation of practices, going so far as to spend rate payer money in attempts to stall national regulation alignments is concerning. Now and for years into the future, rate payers are expected to pay for the continuous need to source & clean any water enough to make it consumable and yet you fail to even suggest the degradation stops. Past LTP's stated that Ashburton would be zero waste by 2021. The introduction of your most recent waste management scheme meant that would never happen. Landfill has since increased exponentially and nothing is mentioned in your plan to even address the issue. Wealth over Health. Profit before People. Unfortunately the only time Ashburton will change will be when forced to by law or crisis.
