

Submission to Ashburton District Council  
on Long Term Plan re: location of second  
Ashburton Bridge

I wish to submit to the ADC Long Term Plan  
I do not wish to present my submission in person

I oppose the second Ashburton Bridge at the Chalmers Avenue  
site.

My reasons for this are:

1. Chalmers Avenue is a built up area which would become very unsafe if the volume of traffic increases as it would if the bridge were to be built at the end of it.
2. The number of schools and pre-schools along that route (or just off it) is a real safety issue for me. It would prevent children from biking or walking to schools by themselves. Children unfortunately take risks when crossing the road/s and they don't have the skills to gauge distances and speed making it very dangerous.

My preferred option is through West Street.
