

Do you wish to speak in support of your submission at the hearing?: No

I am able to attend:

I intend to attend:

Would you like to be added to our database to be notified of future consultations?: Yes

Your Details

Full Name: genevieve de spa

Do you agree with our preferred option or do you support another option?

Drinking water meters: Spread over 3 years - Our preferred option

Let us know why:

Elderly Persons Housing: Status quo - inflationary rent increases + general rate

Let us know why: I think part of how we can show caring community values is to support vulnerable elderly people.

What do you think about our plans for our other projects and activities?: I strongly support the plan for a Biodiversity Officer. I think Ashburton District's record of continued biodiversity loss is appalling and wanted to have that recorded as I notice people's satisfaction (or not) is one of the indicators of success in the area of biodiversity. Ashburton District is not successful in this regard in my view. To illustrate, currently there is a plan which looks like it will not need consent to degrade another SNA at Double Hill Run Rd. This is while we are supposed to be protecting native vegetation and animals which are still there and not further losing or degrading any wetlands or water bodies. We are continuing to do this as a ridiculous rate. Double Hill Run Rd is another example of this.
